

Nathan Allsopp

Product Manager

Sydney, Australia | hello@nathanallsopp.com | +61 414 873 892 | nathanallsopp.com | linkedin.com/in/nathanallsopp

PROFESSIONAL SUMMARY

Product Manager with 10+ years of experience building and scaling B2B SaaS, AI, Fintech and eCommerce products. Experienced taking products from early discovery through to launch and growth, leading cross-functional teams and delivering measurable improvements in revenue, conversion and operational efficiency

PROFESSIONAL EXPERIENCE

Product Manager, Petbarn

Feb 2023 - Present | Sydney, Australia

Lead product and delivery across PetAI, eCommerce and digital platform initiatives for Petbarn and Greencross, supporting millions of customer visits each month.

- Led three cross-functional squads across AI, headless commerce, checkout and veterinary digital platforms.
- Took PetAI from concept and PoC through to national launch; users converted at twice the rate of non-users. Earned industry recognition for PetAI through Microsoft and finalist selection in the inaugural AFR AI Awards.
- Owned Petbarn's multi-year headless commerce transformation, setting the roadmap and leading delivery of the company's modern PWA platform.
- Led delivery of Petbarn's Universal Commerce Protocol (UCP) implementation, becoming a launch partner for Google's Instant Checkout program in APAC.
- Led the redevelopment of Petbarn's primary online checkout journey, improving conversion and contributing a significant revenue uplift.
- Led experience design for the Petbarn mobile app from discovery through launch; the app later reached #1 in Australia's iOS Shopping category (Sep '24) and achieved hundreds of thousands of downloads.

Product Manager, Valiant Finance

Oct 2021 - Feb 2023 | Sydney, Australia

Owned broker-facing fintech products used by internal teams and external referral partners to assess scenarios and progress SME finance applications.

- Led ScenarioIQ from discovery through launch, replacing a lengthy quoting process with an initial viability assessment completed in fewer than seven questions; all broker-channel quoting subsequently moved onto the platform.
- Delivered ComplianceIQ, significantly reducing the total time required to produce compliant consumer-loan documentation while helping reduce compliance errors.
- Led experience design for the external broker dashboard, replacing a legacy frontend with a faster and easier-to-use product for referral partners.
- Combined broker interviews, Mixpanel and LogRocket data to identify friction and shape roadmap priorities with engineering, operations and compliance stakeholders.

Product and UX Lead, FusionGrove

May 2016 - Oct 2021 | Sydney, Australia and London, UK

Owned product strategy, roadmap and experience for a global B2B SaaS sales-intelligence platform, working across enterprise customers, commercial teams and a distributed engineering organisation.

During my time, I Progressed from Associate Product Manager, to Product Manager, to Product and UX Lead.

- Helped take the platform from an initial concept to a fully commercialised B2B SaaS platform serving enterprise customers in 10+ countries including Cisco, Citrix, Insight and CDW
- Led and coached a team of analysts and designers, translating product priorities into requirements, workflows and designs supporting more than 20 engineering and QA staff.
- Delivered a self-service reporting product that reduced customer support overhead by 50% while giving customers faster access to their own performance data.

- Relocated to London to establish a local product presence, work directly with international customers and support the company's overseas expansion.

Senior eCommerce Product Marketing Specialist, Lenovo

Oct 2014 - May 2016 | Sydney, Australia

Supported the Product Marketing Manager to manage ANZ eCommerce promotions roadmap and product marketing activity for Lenovo's direct-to-consumer channel.

- Shaped roadmap and go-to-market priorities using market analysis, competitor intelligence and customer behaviour data, working across product, development, merchandising and digital marketing.
- Used Adobe Analytics to identify conversion barriers and improve key paths to purchase across Lenovo's eCommerce experience.
- Managed product competitiveness across pricing, promotions, inventory and online marketplace activity.
